Phlebotomy Training Program

The Phlebotomy Training Program at the National School of Health Careers is designed to prepare students with the essential skills and knowledge required to perform blood draws, handle laboratory specimens, and provide quality patient care in various healthcare settings.

Program Overview

- Duration: 9 Weeks
- Delivery: In-Person Training with Hands-on Practice
- Certification: Prepares students for National Phlebotomy Certification Exams - Job Placement Assistance: Available upon successful program completion

Course Objectives

- Develop proficiency in venipuncture and capillary blood collection techniques. - Understand infection control, safety procedures, and laboratory protocols.
- Gain knowledge of medical terminology, anatomy, and physiology related to phlebotomy. - Learn proper specimen handling, labeling, and transportation procedures.
- Enhance communication and patient care skills for professional healthcare environments.

Curriculum Highlights

- Introduction to Phlebotomy and Healthcare Ethics
- Anatomy & Physiology Related to Blood Collection
- Venipuncture Techniques and Hands-on Training
- Infection Control & Safety Standards
- Specimen Collection, Handling, and Processing
- Professionalism, Patient Interaction, and Legal Considerations

Admission Requirements

- High school diploma or GED
- Minimum age requirement: 18 years
- Valid government-issued ID
- Migrants accepted
- Proof of immunizations (if required by externship sites)

Certification & Career Opportunities

Upon successful completion of the program, students will be prepared to sit for a national certification exam. Certified phlebotomists may find employment in hospitals, clinics, diagnostic laboratories, blood donation centers, and other healthcare facilities.

Statement of Institution Accreditation & Transfer Credits National School of Health Careers

The National School of Health Careers is not accredited by any accrediting agency recognized by the U.S. Department of Education. As a result:

The institution does not participate in federal financial aid programs. Credits earned at National School of Health Careers may not be transferable to other institutions.

Acceptance of transfer credits is at the discretion of the receiving school, and students should verify with prospective institutions whether credits from National School of Health Careers will be accepted.

Student Complaint Policy

At the National School of Health Careers (NSHC), we are committed to providing a high-quality educational experience and maintaining open communication with our students. If a student has a concern or complaint, we encourage them to first address the issue with the appropriate faculty or administrative staff. If the matter is not resolved satisfactorily, students may escalate their concerns to the school administration.

In the event that a student feels their complaint has not been adequately addressed by the school, they have the right to direct their complaint to the Illinois Board of Higher Education (IBHE).

Complaints can be submitted to IBHE using the following contact information:

Illinois Board of Higher Education (IBHE)

1 N. Old State Capitol Plaza, Suite 333

Springfield, IL 62701-1377

Phone: (217) 782-2551
